

The Marlin Model 20 REPEATING RIFLE

You can buy no better gun for target work and all small game up to 200 yards.

Without change of mechanism it handles .22 short, long or long-rifle cartridges perfectly. The deep Ballard rifling develops maximum power and accuracy and adds years to the life of rifles.

The solid top is protection from defective cartridges—prevents powder and gases from being blown back. The side ejection never lets ejected shells spoil your bead and allows quick, accurate repeat shots. With simple take-down construction, removable action parts, least parts of any .22—it is the quickest and easiest to clean. A great vacation rifle. Ask any gun dealer.

FLORIDA FARMS

That Produce Twenty Profitable Crops

There are few parts of the world which offer the agricultural opportunities that we are offering on our ARTESIAN FARMS, situated in Clay County, Florida. Of all Florida this is the locality which will increase in value the quickest. Here is a place to come with your family and establish a home, and if you will put forth the same effort that you are now doing where you are located, you can quickly grow wealthy for you can select one of twenty or more profitable crops that will make you money every year without a failure. This is not a new and wild country, but is in the heart of population, education and refinement. Land values are naturally growing rapidly, and these farms that we are now offering you for \$35.00 an acre will bring \$100.00 an acre before you realize it. We make this statement regarding this territory because we are convinced of its coming greatness.

DO NOT COMPARE THIS LAND WITH EXPLOITERS' PROPOSITIONS

The rainfall in this section is ample. The climate is all that could be desired. In fact, here everything that tends to success seems to be pretty well blended. Please do not compare our region in Florida with the numerous localities now being exploited in the public press. We are not a drainage proposition but our land is ready for you to move on and we are glad for you to come as soon as possible. You can immediately begin to grow crops from which you in a very short time can realize large profit. Our soil is a dark sandy loam and is underlaid with a clay sub-soil. We have water and rail transportation. We are within ten to twenty miles of the growing city of Jacksonville. We want agents for this land and we want buyers.
